

Asbestos Awareness

Employers must provide adequate training for their operatives in compliance with their responsibilities under both the Control of Asbestos Regulations 2012 and the Health & Safety at Work etc Act 1974.

The aim of this course is to improve delegates awareness of asbestos and by the end of the course they will be able to identify the different types of asbestos, identify the health risks, identify the places where asbestos is commonly found and understand the requirements for asbestos management.

Awareness training will reduce the potential of exposure to asbestos as employees will understand their obligations.

The course References the following HSE Publications: L127 & HSG 227 (Modules 1-3 of Chapter 4) and the HSE DVD 'How are You'

Who Should Attend
